

PITHAPUR RAJAH'S GOVERNMENT COLLEGE (A)

KAKINADA

DEPARTMENT OF MATHEMATICS

DATE : 29th NOVEMBER 2023

The main objective of Parents- Teachers Meeting, is **to assist parents in understanding child's progress at school and find solutions to academic or behavioral problems, if any.**

Parent-Teacher Meetings (PTM) are playing a huge role in shaping a child's educational journey and future academic success. Parents know their children's habits, difficulties and skills like no other. Teachers act as children's second parents and observe them for hours every day in the classroom. When teachers and parents develop a strong bridge to help the child excel, it can create wonders. A parent-teacher meeting is a perfect way to discuss the child's progress, the best ways to help the child, and exchange insights and thoughts about the child's developmental milestones and academic progress.

The parents-teacher meeting is the key component in college education because parents get an opportunity to connect with the teachers and discuss about the academic progress of their child and to develop strategies to support their child's learning ability. Parents-teacher meeting is essential to fostering a successful educational experience for children. This article will talk about the importance of parent's teacher meeting and offer tips for parents to make the most of these meetings.

The parents-teacher meeting provides a chance for parents to look deep into their child's academic progress, strengths, and areas for improvement. During the parents-teacher meeting, teachers provide parents with crucial insights into their child's performance in the classroom and accordingly suggest strategies to support their learning ability.

The meeting also provides an opportunity for parents to share their concerns or questions about their child's education. This two-way communication helps ensure that parents and teachers are on the same page and can work together to support the child's academic progress.

A parent-teacher meeting is a great opportunity to:

- share academic progress and growth based on classroom observations, testing data, assessments, portfolios, and assignments.
- learn from parents or guardians so you can be better informed about students' strengths, needs, behaviors, and learning styles.
- discuss enrichment or intervention strategies to support students' learning.
- discuss issues that may be interfering with students' learning and growth.
