TEACHER'S DAY CELEBRATIONS

5th SEPTEMBER 2023

Teacher's Day is celebrated every year on September 5 to honor and celebrate our teachers. This day is also celebrated to commemorate the birth anniversary of former President Sarvepalli Radhakrishnan who was a scholar and a teacher.

Teachers' Day 2023:

History The first Teachers' Day was celebrated in 1962 when Dr. Sarvepalli Radhakrishnan was appointed as the second President of India. It so happened that when some of his former students and friends expressed their desire to celebrate his birthday on September 5, he suggested that instead of celebrating his birthday, he would like if the day was observed as 'Teachers' Day'. Radhakrishnan was a promoter of education and wanted to take this opportunity to make sure that everyone has access to good education.

Objectives of Celebrating this Event

There are a number of events celebrated in a year, and every event has some reasons to be celebrated on that specific day.

Teacher's Day in India is celebrated in memory of the greatest teacher of such a great nation Dr. Sarvapalli Radhakrishnan. Through celebrating such an auspicious occasion, we pay homage him for his contributions in making India an educated nation. By celebrating Teacher's Day, we teach our children why we should respect our teachers.

Another objective of celebrating such a rewarding day is that, on Teacher's Day, we get a chance to thank our teachers and tell them that how much successful we are because of their hard works in making us a true human being.

Teachers' Day 2023: Significance

Teachers' Day is significant as it is a day to honor and appreciate the hard work and dedication of teachers. This day is to acknowledge teachers for their efforts and dedication towards students. It is also the day where the noble profession of teaching is highlighted and emphasis is laid on the significant role that teachers play in the development of a nation by developing and shaping young minds.

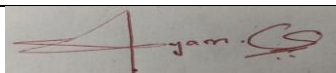

Among all the events in India, Teacher's Day is one and perhaps the most important. It makes us realize that teachers have played a very important role in showing us the true way of living. Teacher's Day tells us that our parents and teachers are the most important in our life. Even there are some times when a teacher plays a more important role than our parents.

As we all know that the Teacher's Day is the birth anniversary of Dr. Sarvapalli Radhakrishnan, it is a great day to remember the greatest teacher of India ever. On Teacher's Day, the respect received by a teacher from his students inspires him to do much better in his profession.
