

National Energy Conservation Day - Webinar By Sri. A.V.V.V. Prasad Rao

Event Date : 14/12/2020

A webinar in collaboration with solar systems on the Occasion of National Energy Conservation Day on 14.12.2020

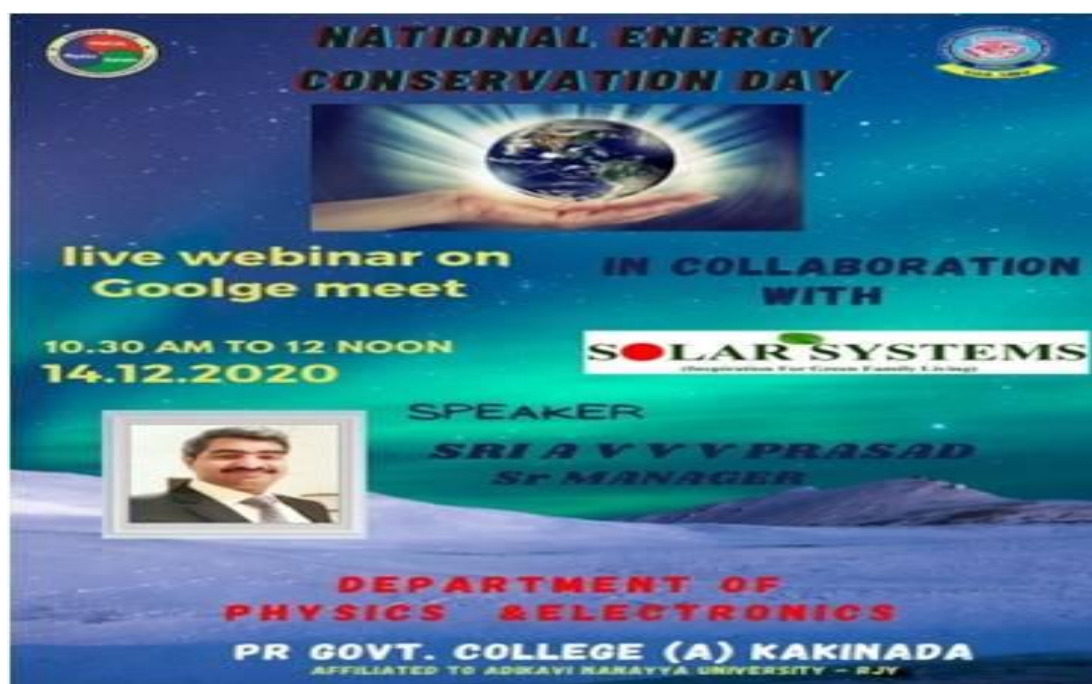

Sr. Manager , Solar systems Sri A V V V Prasad been the Chief guest and Resource person of the Program.

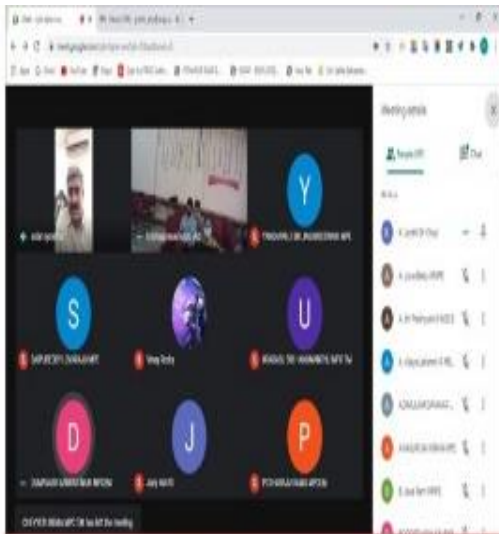

The President of the Program Dr. C. Krishna in his presidential address emphasized the importance of the Energy in day to day life. He quoted that Saving Energy is Making energy. He added that without the Energy, there is no possibility of life on Earth.

Dr. K. Jyothi, Convener of this program, iterated that It is our prime duty to generate awareness on Energy conservation among Youth. Little amount of awareness can change the habits of individuals, thereby we can create a big difference in the energy sector.

Resource person Sri A V V V Prasad said that The energy on Earth is not in unlimited supply. Energy can take plenty of time to regenerate. Hence it is essential to conserve energy

Sri U V B B Krishna Prasad proposed vote of thanks. Program was closed with the singing of National anthem.
