

Guest Lecture By Mr. M. Bullabbai On The Eve Of "Earth Day"

Event Date : 22/04/2021

Today i.e., on 22/04/2021 on the eve of "Earth Day", we the Department of Physics & Electronics could arrange a Guest Lecture by Mr. M. Bullabbai Geo-Physicist at ONGC Mumbai. We extend our heartfelt gratitude to our Hon'ble Principal Dr. C. Krishna for encouraging and energising us with his gracious Presence, also our respected HOD Dr. K Jyothi for her kind support in the event, for motivating and guiding us to do much more, also our esteemed PG co-ordinator Dr. M.V.K.Meher for planning such an occasion, for all his efforts to make it come true, we extend our gratitude to all the faculty members of our Dept. For stimulating and supporting all the actions. Especially the students for being extremely enthusiastic to learn new things and explore new spheres in Physics. In the Lecture Mr. M. Bullabbai had dealt with various career options available to Physics students, a whole lot of competitive exams to be focussed on, several research activities which he is involved in especially in the areas of Geo-Physics. He had provided us with many interesting knowledgeable topics and encouraged the students to increase their interest in Physics, learn the subject from basics and utilize the various sources available to them at every stage of their journey as a student of Physics. He being the alumni of Our PRGC, we felt really Proud and extremely motivated with his lecture. We look forward to have many more sessions as these and that every student could utilize such opportunities to explore life from wider perspectives and to grow into a successful physicist further.
