2. Second Party

1. PURPOSE:

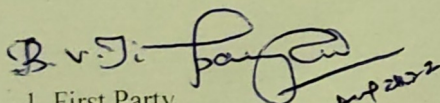

The main purpose of the MoU is to enable the Department of Physics (1st party) to take the assistance in maintenance of solar panels and solar power generated in the Department from the 2nd party. In addition to this involving the 2nd party in the academic activities like running solar energy based certificate courses, industrial training on manufacture of solar based devices etc. to develop the knowledge and marketing skills of the students. It may also enable the mutual cooperation of both the parties in utilization of non conventional sources of energy on public demands.

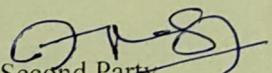

2. Terms of MoU:

From 22nd August 2022 for the academic year 2022-23, the Department of Physics in coordination with the 2nd party to work on academic activities, industrial training on manufacture and functioning of solar based instruments etc. This MoU will be valid for a period of 5 years from the date of the contract. The 1st, 2nd parties must make a plan in the event of a conflict of interest, the parties must resolve them with the assistance of party mediators. If any party wishes to terminate the contract, it must be sent to the address listed on the contract by registered post 6 months in advance.

3. Responsibility of Parties:

The 2nd Party should monitor the functioning of solar power generation in the stipulated intervals of time. The 2nd party should extend their support to the 1st party in designing and implementation of academic co-curricular activities. The 1st party should encourage the disciplined and committed students to participate and to maintain punctuality in the training programs entertained by the 2nd party.
