Report of the Activity

The Department of Physics&Electronics organized a parent teacher's meeting at 10am in room no13 on 28th August 2025. Sri. T.V.V.satyanarayana,coordinator of parent teacher meeting,SriP.Vijayakumar, Academic cell coordinator all the members of the department, and 48 students with their parents and 94 students were participated session.

Respected coordinator of parent teacher meeting,Sri. T.V.V.satyanarayana, addressed the participants regarding the student beneficial activities being implemented by the departments and the skill development courses running in the college.

RespectedAcademic cell coordinatorSri P.Vijayakumar,addressed the parents and were made to known about their role as stakeholders in the development of the institution as well as the society by delivering qualified students.

HoD of Physics and Electronics ,Dr.M.Surekha,explained various facilities available in the department, which are most useful for the academic growth of the students.

Feedback from the parents was collected and the program ended with the one-to-one interaction with the parents and teachers. The parents were made to know the marks obtained by their children in the semesters and the attendance by their respective mentors.

About Parent Teachers meeting:

Parent-teacher meetings are a crucial aspect of a child's education. They are an opportunity for parents and teachers to come together and discuss the child's progress, strengths, and weaknesses. These meetings are typically held once or twice a year and offer an excellent way for parents to be more involved in their child's education.

A parent-teacher meeting aims to provide an opportunity for parents and teachers to discuss the child's academic progress and overall well-being. During the meeting,

teachers share the child's academic and social progress, and parents can share their observations and concerns about their child's learning and behaviour.

Parent-teacher meetings provide parents with a clear understanding of their child's academic and social progress. Parents can discuss the child's strengths and weaknesses with the teacher and understand how they perform compared to their peers. Additionally, teachers can provide parents with insights into the child's learning style, interests, and the areas where the child needs more support.

Moreover, these meetings allow teachers to get to know the child's parents and learn more about their family life. Parents can share important information about their child's personality, home life, and family situation that could impact their academic progress. This information can help teachers understand the child better and tailor their teaching methods to meet the child's needs.

Another benefit of parent-teacher meetings is that they allow for open communication between parents and teachers. Parents can ask questions about the child's academic progress, behavior, and classroom activities. They can also provide feedback to the teacher about their child's experience in the classroom. This open communication can help build a stronger relationship between parents and teachers, essential for the child's overall academic success.

Furthermore, parent-teacher meetings can help identify any issues or concerns that may impact the child's academic progress. For instance, if a child struggles with a particular subject, the teacher can offer additional support and resources to help the child improve. Additionally, if a child is experiencing emotional or behavioural problems, the teacher can work with the parents to find a solution.

In conclusion, parent-teacher meetings are essential to a child's education. They allow parents and teachers to come together, discuss the child's progress, and work together to ensure that the child is successful. These meetings can help to identify areas where the child needs more support, provide parents with valuable insights into their child's learning style, and build a stronger relationship between parents and teachers. As a result, parent-teacher meetings should be a priority for parents who want to be involved in their child's education and ensure their child receives the support they need to succeed.
