1.0 ACT: Powered By Fiber... Building Relationships.

Atria Convergence Technologies Ltd is India's 3rd largest ISP in the country with over 1.2 Million delighted customer across Hyderabad, Bengaluru, Chennai, Delhi and other markets in AP.

ACT – INTEGRATED FIBERNET SERVICE PROVIDER

ACT provide broadband connection on optic fiber, designed to carry vast amount of information at the speed of light to give you a phenomenally fast broadband experience. Enjoys the reputation of providing the most advanced DATA services. A reputation garnered after years of technological breakthroughs, innovation and world-class services. ACT has enriched lives and brought people closer through its new age services. And by choosing to be a part of this family, you have chosen a world full of new possibilities.

TECHNOLOGY FOR THE FUTURE

ACT Broadband services- India's premium broadband service bring to you a world- class network, so you can stay connected at all times.

- A dedicated safety overhead fiber line connection ensures that you get superior data quality and instant connectivity.
- State - of - art network and switching technology ensures you get many innovative products and services.
- The ACT network concept is branded as Network Tree. The Network Tree shall have a 3-tiered architecture and hence the name. This is in keeping with the general data-flow and Information management architecture that an Enterprise shall have. The three tiers are the Access Layer, the Distribution Layer and the Core Layer. The architecture has been conceived with the needs of growing enterprises and applications with tremendous scalability as well as redundancies built-in to ensure maximum uptimes.
- MPLS –Multi protocol layer network is running with MPLS network
- Access device to customer end running with LACP (Link Aggregation Control Protocol)
